During 1953, monopoly procurement of rice was replaced by levy system in West Bengal from 1st January; the levy system was given up from 14th October and purchases were made on a voluntary basis thereafter. In Andhra, the levy system of procurement was given up in mid-December and purchases were made on a voluntary basis at village site at prices fixed by the Government. In Uttar Pradesh procurement of rice was given up in December 1953 though collection of the quantity procured earlier continued thereafter. Procurement of wheat and coarse grains was given up after the decontrol of these cereals in November. Small quantities of coarse grains were, however, procured during 1954 from the eastern districts of Uttar Pradesh. Some quantity of coarse grains was also procured by Madhya Bharat in 1954. Procurement of rice was resumed in Surplus districts of Madras in 1952. In Assam, Penang, Punjab and Travancore-Cochin procurement of rice was stopped from 14th March 1954, 21st March 1954, 20th February, 1954, and 7th April, 1954 respectively, and in other States procurement of rice was stopped completely from 10th July, 1954 consequent upon complete decontrol of rice from that date.

6. The figures with minus sign in the column under "Net Imports" represent net exports from the State concerned to other States.

7. In the GRAND TOTAL figures under the column "Net Imports" are given in two rows: the first shows the total supplies out of both the imported cereals and internal surpluses; the second row with minus sign gives separately the supplies out of internal surpluses already included in the first row.

**Rice issued only against medical certificates.

†Includes figures for Andhra upto 1952.

‡Mixed wheat (atta) was issued when coarse grains were not available.

NOTES.—1. Ration allowed to children is one-half of that allowed to adults. Heavy manual workers are allowed a supplementary ration of 4 oz. per adult per day.

2. Quantities shown against (i) Rice, (ii) Wheat, and (iii) others indicate only the maximum quantity allowed in the respective areas for that particular grain, while "Total" indicates over-all scale of ration.

3. There was no statutory rationing in Madhya Pradesh on 31st December, 1949 but a system of quasi-rationing *i.e.*, provisioning scheme was functioning in 16 towns. Even this system of provisioning was not existing on 31st December, 1948.

4. A temporary reduction in the over-all quantum of the Cereal ration to 9 oz. per adult per day in all States was announced by the Government of India on the 19th January, 1951. On the 12th June, 1951, however, the State Governments were authorised to raise, at the earliest date convenient, the 9 oz. ration to the limit of 12 oz. per adult per day consistently with the stocks immediately in their possession.

(Based on Departmental figures)

NOTES.—1. The subsidy scheme was introduced from 1st April 1946. A revised scheme was enforced from 1-1-1951, according to which the Central Government subsidised specified quantities of imported cereals in selected industrial towns and deficit areas. With effect from 1-3-1952 the subsidy scheme was abolished but imported rice (coarse and broken) and Milo continued to be supplied by the Centre to the recipient States at reduced pool prices (i.e. at prices lower than their actual landed costs), the resulting losses being borne (exclusively) by the Government of India.

2. These figures represent the amount of subsidy which accrued to the State Governments on the cereal supplied to them during the specified period and do not represent the amount as adjusted in the accounts.

3. In addition to these amounts, subsidy was also paid as shown below :—

	Rs. (lakhs)
